MY PUBLICATIONS

The diagram shows a central entity 'paper/poster' with attributes 'title', 'editor: name + contact', and 'stake: time'. It is connected to a 'view' entity and a 'status' entity. The 'view' entity has a red '1' next to it, and the 'status' entity has a red '1)' next to it. The entire diagram is enclosed in a red box.

```
graph LR; paper_poster[paper/poster] --- title[title]; paper_poster --- editor[editor: name + contact]; paper_poster --- stake[stake: time]; paper_poster --- view[view]; paper_poster --- status[status];
```

~~✗~~ edits on website or resubmit the whole paper / process ~~✗~~

A hand-drawn diagram of a paper structure. On the left, a rectangular box labeled 'paper' contains several horizontal wavy lines representing text. Some of these lines are highlighted with yellow. To the right of the box, the following text is written: 'author:', 'abstract:', 'bio:', and 'Comments from editor:'. Below the 'Comments from editor:' text is a large, empty rectangular box.
